**Attention: The Human Resource Manager.**

Dear Sir/Madam,

**APPLICATION FOR THE POST OF A PROGRAMMER.**

I am a successful professional and highly competent team member with a background of extensive hands-on professional experience with MySQL, HTML5, PHP, Laravel 5 programming framework (Object Oriented Programming). I've attained considerable success during my professional career in this field like working Kaduna State Government File Management System, Cancer Network Nigeria and I'd like to bring that success to your organization.

This opportunity presents an opportunity for me to leverage my skills and actively contribute to the success of the organization.

I am qualified to enhance the firm's success. Among my qualifications and skills that should meet your needs are:

- Solid PHP programming skill with MVC (Model View Controller) laravel 5 framework. This gave me the opportunity to work as a consultant in the development to Kaduna State Government File Management System.
- Ability to work with little or no supervision: this has been proven so; as I have been able to single-handedly build a strong IT team in my present organization.
- Strong analytical skills, along with the ability to manage staff, performance, set and achieve goals.
- Effective problem-solving skills: I can contribute through a proven track record for identifying problems and needs, gathering and analyzing information, and pinpointing resources.
- Strong ability to collaborate with others: I am a strong team player with enthusiasm and drive who is reliable and committed to the highest work ethics.

Through my experience and educational background, I have gained comprehensive knowledge of effective business and programming practices that yield bottom-line results, as well as an understanding of organisational strategy.

This knowledge, combined with my commitment to excellence, as well as my ability to write concisely and promote change proactively, would be of great value to your firm.

Yours faithfully

OLUWAFEMI Ayodeji Emmanuel
